

DONNA HIGH SCHOOL

"We will provide a quality education and treat ALL with dignity and respect..."

Volume 1, Issue 3 Oct. 3rd, 2016

Mrs. Nancy Lopez Castillo, Principal

Dean of Instruction

Mrs. Lisa McCandless

To Our DHS Students,

I am honored to have the opportunity to be your Dean of Instruction at Donna High School. I believe my role as an educator is to guide you in developing skills to achieve success and fulfillment in your quality of life and contribution to community. I am passionate about empowering you through education and have advice for your high school journey. Always give 100% effort in your classes working towards graduation; most adults do not regret what they did, but what they didn't do. Know you will face challenges, but continue to give your best effort. Understand that no great success was ever achieved without failure, and through struggles, you become a stronger person. Maintain a balanced lifestyle by eating healthy, sleeping sufficiently, and prioritizing your schedule daily. A balanced life is a happy life. Finally, I want to encourage you to continue your education by earning a college degree or career certification; never stop learning. Remember, education is power.

Please know we will be working hard to ensure you have the highest quality of education available and my door is always open to you. I wish you years of excellence at Donna High School!

Donna High School: Class of 1998
Texas A&M University: Class of 2002
Major: Political Science
Lamar University: Class of 2010
Masters in Educational Administration
"Education is the most powerful weapon which you can use to change the world."

College Day @ DHS

College day was a success for our students. Many students went and took advantage of the information available to them. There were many colleges that attended the event, giving out brochures, pens, and pencils, as

well as information about their colleges. This year was a change from the previous college days, the only students who could attend were the seniors. In the past, all the school students attended,

however, many of the underclassmen, didn't take it as seriously as the senior class. The seniors from Donna North came over and attended the college day after our seniors. Next year's college day will be host by Donna North.

**No School
on Monday,
Oct. 10. -
Bad Weather Day.**

The University of Texas at Austin

OnRamps

English, Statistics, Pre Cal, Computer Science, Geo Science, and Physics.
